COP Outreach Project

On Saturday, September 22nd, P3 students Carol Bennett, Charisa Flaherty, Lindsay Holmson, and Sandra Widows participated in a trial run for the upcoming spring College of Pharmacy Outreach Project. The successful event took place at the Safeway Pharmacy in Hood River, Oregon. Among the cookies, coffee and orange/black balloon decorations provided by the store's manager, the students performed 50 osteoporosis screenings and 42 Body Mass Index screenings. Safeway Inc. sponsored the event by providing the osteoporosis and BMI machines for the students use.

The outreach project, conceived by the Oregon State Student Pharmacists (OSSP), promotes the expand-

ing role of today's pharmacist to areas outside of the Portland/ Corvallis corridor. It gives OSU College of Pharmacy students an opportunity to use their clinical skills and provide health screenings to the public in more rural areas of the state. Planning is now underway for the upcoming spring event that hopes to send students to sites throughout Oregon.
